Attn Mr. Dulles  
Washington D.C.

Dear Sir:-

I am enclosing a letter  
by Bert Bacharach in the N.Y. Times  
American, with an item. I have "red  
-penciled".

You have proved that this  
espionage can be contacted, but this  
about our press, <sup>which</sup> gives away our  
secrets in wholesale lots, under the  
guise of "free press" to sell papers?

They should be informed  
with the knowledge that this is "bad",  
even tho' it is "good" at present, and  
that giving away military secrets, even  
to sell papers is still TREASON.

Thanks for listening (Reading)

Arthur Richardson

# Something to Wave About

By BERT BACHARACH

**G**IRLS: Have your new permanent while sun is in Scorpio and when moon is in a fixed sign (Leo, Taurus or Aquarius) and you'll not be disappointed. It will last much longer . . . What does it mean when someone says, "Just to show you my heart's in the right place."? (Do we have a choice?) . . . Did you know that jails in 28 different countries permit "conjugal visits" between prisoners and their wives? Penology experts claim it aids rehabilitation of the criminals . . . Odd Sight: Joan Crawford carries her own bottle of vinegar to many of the restaurants she visits and mixes her salad dressing with it! . . . Recent pictures of L.A.'s Mickey Cohen show a great resemblance to the late Al Capone . . . The health food shop at 57th and 6th sells coffee for a dime and coffee-substitute for 15c!

BACHARACH

**HOLLYWOOD'S** barbershops specialize in "invisible haircuts" for stars in the middle of making a picture, who have to keep their hair looking exactly as it did in previous scenes . . . Reaction to my recent note about bloomers being a "disappearing item," I've been informed that "Fancy Dance Pantaloon" and "Underpinners Bloomerettes" are big sellers! If a beautiful Rolls Royce has "72" on its license plate, it's one of the rental jobs from Buckingham Livery . . . Oddball Promotion: Every messenger-delivered corned beef or pastrami sandwich with the label read-

ing, "James Komack at the Waldorf Delicatessen." It turned out to be a teaser-campaign for a very funny album of the same name! . . . New toy that may sweep this country is the "Wobble Board" from Australia. Manipulation of board makes sounds of a bongo drum . . . Want an extra-good cheeseburger? Mix the melted cheese with the hamburger meat before cooking, instead of using it just as a topping.

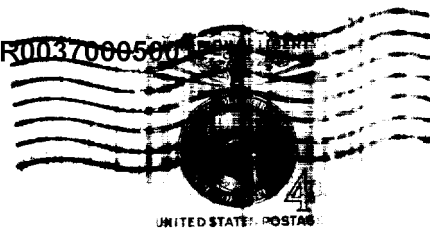

**BUSINESSMAN'S** dilemma: The phones can be silent for long periods 'til the very minute one starts dictating —when they start bringing continuously! . . . Fact about Fallacies: People can be sound asleep with both eyes open . . . Kitchen-Snooping: Chef at the University Club pries apple skins before baking, to keep them from bursting . . . Hollywood's sculptress, Lia Di Leo is a real beauty — and keeps turning down movie offers. Prefers sculpting . . . Simile: As sweet as your wife's conduct the day before her birthday. . . Bet you wouldn't have guessed that Alaska has almost 400 air fields, and 70 seaplane bases, with more being built! . . . Kangaroo steak now on the menus in Australia. Seems they're multiplying at an alarming rate, and must be disposed of.

**HELPFUL HINTS:** Handymen: Drawer pulls, from an old piece of furniture, inverted and attached to the workbench, make fine receptacles for small nails, screws and parts . . . Old egg-beaters make perfect paint mixers much better and faster than a stick . . . Coffee or tea stains on plastic cups or saucers can be removed by scrubbing with a damp sponge sprinkled with dry baking soda.
